

Microbes

Microbes: Biological helpers

Microbes are not the primary originator of a disease, rather they are biological, meaningful helpers and part of a complex disease process.

Microbes organized by brain layers

Brain Stem
C+/C-

Fungi, micro-bacterias
„Destruction crew“

Cerebellum
C+/C-

Fungi, micro-bacterias
„Cleanup worker“

Cerebral Medulla
C-/C+

Bacterias
„Filling up gaps“

Cerebral Cortex
C-/C+

Viruses
„Reconstruction crew“
